

**ARC Medical**  
*Protecting Every Breath™*

## Giving Back

For the past 15 years ARC has supported anesthesia professionals by providing our circuitGuard® for medical mission trips around the globe.

Traveling with all the necessary equipment requires judicious use of space and circuitGuard® allows for multiple patient use of the anesthesia circuit whether it is a circuit from the mission or reusable circuits at the destination.

By using circuitGuard® and pediatric expandable circuits for adults and children, the amount of space necessary is reduced significantly.

ARC supports these medical missions and the healthcare they provide. We are honored to be a small part of this journey.

Best regards,

Hal Norris, President
